

TABLE 1. Number, incidence rate¹, and median days² away from work for nonfatal occupational injuries and illnesses involving days away from work³ for musculoskeletal disorders⁴ by nature of injury or illness and ownership, Oregon, 2015

Nature	Musculoskeletal disorders (MSDs)		
	Number	Incidence rate	Median days away from work
Total private industry ^{5,6,7}	6,190	51.6	10
Traumatic injuries and disorders	6,010	50.1	10
Traumatic injuries to bones, nerves, spinal cord	90	.8	17
Traumatic injuries to nerves, except the spinal cord	90	.8	17
Pinched nerve	90	.8	17
Traumatic injuries to muscles, tendons, ligaments, joints, etc.	4,560	38.0	9
Cartilage fractures and tears	60	.5	130
Meniscus tears	60	.5	130
Sprains, strains, tears	4,330	36.1	8
Sprains, strains, tears, unspecified	610	5.1	10
Major tears to muscles, tendons, ligaments	110	.9	35
Sprains	470	3.9	11
Strains	3,100	25.9	7
Multiple sprains, strains, tears	40	.3	53
Hernias due to traumatic incidents	170	1.4	19
Other traumatic injuries and disorders	1,360	11.3	10
Nonspecified injuries and disorders	1,360	11.3	10
Soreness, pain, hurt—nonspecified injury	1,280	10.6	9
Swelling, inflammation, irritation—nonspecified injury	80	.6	20
Diseases and disorders of body systems	180	1.5	24
Nervous system and sense organs diseases	60	.5	26
Disorders of the peripheral nervous system	60	.5	26
Carpal tunnel syndrome	60	.5	26
Musculoskeletal system and connective tissue diseases and disorders	130	1.1	19
Musculoskeletal system and connective tissue diseases and disorders, unspecified	30	.2	24
Soft tissue disorders, except the back	90	.8	5
Epicondylitis	30	.2	5
Other or unspecified tendonitis (tendinitis)	40	.3	3
Total state government ^{5,6,7}	250	36.6	14
Traumatic injuries and disorders	250	36.6	14
Traumatic injuries to muscles, tendons, ligaments, joints, etc.	200	29.6	14
Sprains, strains, tears	190	28.7	14
Strains	180	26.2	14
Other traumatic injuries and disorders	50	7.0	12
Nonspecified injuries and disorders	50	7.0	12
Soreness, pain, hurt—nonspecified injury	50	7.0	12
Total local government ^{5,6,7}	660	55.6	10

See footnotes at end of table.

TABLE 1. Number, incidence rate¹, and median days² away from work for nonfatal occupational injuries and illnesses involving days away from work³ for musculoskeletal disorders⁴ by nature of injury or illness and ownership, Oregon, 2015 — Continued

Nature	Musculoskeletal disorders (MSDs)		
	Number	Incidence rate	Median days away from work
Traumatic injuries and disorders	660	55.6	10
Traumatic injuries to bones, nerves, spinal cord	20	1.3	32
Traumatic injuries to nerves, except the spinal cord	20	1.3	32
Pinched nerve	20	1.3	32
Traumatic injuries to muscles, tendons, ligaments, joints, etc.	610	51.2	10
Sprains, strains, tears	590	50.0	10
Sprains, strains, tears, unspecified	130	11.1	22
Sprains	100	8.2	4
Strains	350	29.7	10
Other traumatic injuries and disorders	40	3.1	36
Nonspecified injuries and disorders	40	3.1	36
Soreness, pain, hurt—nonspecified injury	30	2.8	36

¹ The incidence rates represent the number of injuries and illnesses per 10,000 full-time workers and were calculated as (N/EH) x 20,000,000, where

N = number of injuries and illnesses
 EH = total hours worked by all employees during the calendar year
 20,000,000 = base for 10,000 equivalent full-time workers
 (working 40 hours per week, 50 weeks per year).

² Median days away from work is the measure used to summarize the varying lengths of absences from work among the cases with days away from work. Half the cases involved more days and half involved fewer days than a specified median. Median days away from work are represented in actual values.

³ Days-away-from-work cases include those that resulted in days away from work, some of which also included job transfer or restriction.

⁴ Musculoskeletal disorders include cases in which the nature of the injury or illness is pinched nerve; herniated disc; meniscus tear; sprains, strains, tears; hernia (traumatic and nontraumatic); pain, swelling, and numbness; carpal or tarsal tunnel syndrome; Raynaud's syndrome or phenomenon; musculoskeletal system and connective tissue diseases and disorders, and when the event or exposure leading to the injury or illness is overexertion and bodily reaction, unspecified; overexertion involving outside sources; repetitive motion involving microtasks; other and multiple exertions or bodily reactions; and rubbed, abraded, or jarred by vibration.

⁵ Excludes farms with fewer than 11 employees.

⁶ Data for Mining (Sector 21 in the North American Industry Classification System United States, 2012) include establishments not governed by the Mine Safety and Health Administration rules and reporting, such as those in Oil and Gas Extraction and related support activities. Data for mining operators in coal, metal, and nonmetal mining are provided to BLS by the Mine Safety and Health Administration, U.S. Department of Labor. Independent mining contractors are excluded from the coal, metal, and nonmetal mining industries. These data do not reflect the changes the Occupational Safety and Health Administration made to its recordkeeping requirements effective January 1, 2002; therefore, estimates for these industries are not comparable to estimates in other industries.

⁷ Data for employers in rail transportation are provided to BLS by the Federal Railroad Administration, U.S. Department of Transportation.

Note: Dash indicates data do not meet publication guidelines. Because of rounding and data exclusion of nonclassifiable responses, data may not sum to the totals.
