EMPLOYER COSTS FOR EMPLOYEE COMPENSATION – JUNE 2010

Private industry employers spent an average of \$27.64 per hour worked for employee compensation in June 2010, the U.S. Bureau of Labor Statistics reported today. Wages and salaries averaged \$19.53 per hour worked and accounted for 70.6 percent of these costs, while benefits averaged \$8.11 and accounted for the remaining 29.4 percent. Total compensation costs for **state and local government** workers averaged \$39.74 per hour worked in June 2010. Total compensation costs for **civilian** workers, which include private industry and state and local government workers, averaged \$29.52 per hour worked in June 2010. (See chart 1.)

Employer Costs for Employee Compensation (ECEC), a product of the National Compensation Survey, measures employer costs for wages, salaries, and employee benefits for nonfarm private and state and local government workers.

Chart 1. Employer costs per hour worked: civilian, private industry, and state and local government workers, June 2010

Cost per hour worked

Chart 2. Employer costs per hour worked: retirement and savings benefit costs by selected occupational groups, private industry, June 2010

Cost per hour worked

Private industry employer costs for retirement and savings benefits varied by occupational group. Private industry retirement and savings benefit costs for management, professional, and related occupations were \$1.89 per hour, or 3.9 percent of total compensation, in June 2010. Costs were lowest among service occupations, 21 cents or 1.5 percent of total compensation. (See chart 2 and table 5.) Included in this amount were employer costs for defined benefit and defined contribution plans.

Civilian

Civilian employer costs averaged \$2.60 per hour worked for **insurance** benefits (life, health, and disability insurance), or 8.8 percent of total compensation. In addition to insurance, the other benefit categories are: **paid leave** (vacation, holiday, sick leave, and personal leave), which averaged \$2.04 (6.9 percent of total compensation); **supplemental pay** (overtime and premium, shift differentials, and nonproduction bonuses), which averaged 71 cents per hour worked (2.4 percent); **retirement and savings**, which averaged \$1.31 per hour (4.4 percent); and **legally required benefits** (Social Security, Medicare, unemployment insurance, and workers' compensation), which averaged \$2.30 per hour worked (7.8 percent). (See table A and table 1.)

Private industry

Private industry employer costs for **paid leave** averaged \$1.86 per hour worked (6.7 percent of total compensation), **supplemental pay** averaged 78 cents (2.8 percent), **insurance** benefits averaged \$2.22 (8.0 percent), **retirement and savings** averaged 96 cents (3.5 percent) and **legally required benefits** averaged \$2.29 (8.3 percent) per hour worked. (See table A and table 5.)

Retirement and savings costs in private industry

In June 2010, average costs in **private industry** for retirement and savings benefits were 96 cents per hour worked, or 3.5 percent of total compensation. The average cost per hour worked for defined benefit plans—retirement plans that typically specify a benefit based on age, years of service, and earnings—was 42 cents (1.5 percent of total compensation). The average cost for defined contribution plans—retirement plans usually based on employer contributions to individual employee accounts—was 54 cents (2.0 percent of total compensation). (See table 5.) Employer costs for retirement and savings plans are affected by several factors, including the percentage of employees that participate in the plans offered by their employer. (The National Compensation Survey produces comprehensive data on the percentage of workers with access to and that participate in retirement plans. Data for March 2010 are available at <http://www.bls.gov/news.release/pdf/ebs2.pdf>).

Retirement and savings costs were higher, both in amount and as a proportion of total compensation, for union workers (\$2.63 and 7.0 percent of total compensation) than for nonunion workers (78 cents and 2.9 percent of total compensation). Defined benefit plan costs were significantly higher for union workers (\$1.92 and 5.1 percent of compensation) than for nonunion workers (25 cents and 1.0 percent of compensation). (See table 5.)

Retirement and savings costs were higher per hour worked in goods-producing industries (\$1.50 and 4.6 percent of total compensation) than in service-providing industries (85 cents and 3.2 percent of total compensation). Within goods-producing industries, retirement and savings costs averaged \$1.68 per hour in construction and \$1.30 per hour in manufacturing. Costs in service-providing industries varied widely, ranging from 11 cents in leisure and hospitality to \$1.63 in the information industry. (See table 6.)

Retirement and savings costs increased, both in cost per hour worked and proportion of total compensation, with establishment size. Establishments with fewer than 50 workers averaged 52 cents (2.4 percent of total compensation), significantly less than establishments with 500 workers or more, averaging \$1.97 (5.0 percent). (See table 8.)

Table A. Relative importance of employer costs for employee compensation, June 2010

Compensation component	Civilian workers	Private industry	State and local government
Wages and salaries	69.6%	70.6%	65.7%
Benefits	30.4	29.4	34.3
Paid leave	6.9	6.7	7.6
Supplemental pay	2.4	2.8	0.9
Insurance	8.8	8.0	11.8
Health benefits	8.3	7.5	11.4
Retirement and savings	4.4	3.5	8.0
Defined benefit	2.7	1.5	7.2
Defined contribution	1.7	2.0	0.8
Legally required	7.8	8.3	6.0

The Employer Costs for Employee Compensation for September 2010 is scheduled to be released on Wednesday, December 8, 2010, at 10:00 a.m. (EST).

Employer Costs for Employee Compensation data on total compensation, wages and salaries, and benefits in private industry are produced annually for 15 metropolitan areas. Metropolitan area data will be included in the March 2011 news release published in June 2011. For further information about metropolitan area ECEC estimates see: “BLS Introduces New Employer Costs for Employee Compensation Data for Private Industry Workers in 15 Metropolitan Areas,” at <http://www.bls.gov/opub/cwc/cm20090921ar01p1.htm>.

Supplemental tables with occupational, establishment size, and bargaining status series for detailed industries are available at <http://www.bls.gov/ncs/ect/sp/ecsuptc15.pdf> and <http://www.bls.gov/ncs/ect/sp/ecsuptc15.pdf>.

Relative standard errors for all cost estimates in the most recent news release and supplementary tables are available at <ftp://ftp.bls.gov/pub/special.requests/ocwc/ect/ececrse.pdf> and <http://www.bls.gov/ncs/ect/sp/ecsuptc15.pdf>.

Historical ECEC data are available in three listings, all available at <http://www.bls.gov/ect/#tables>. The first historical listing covers data for the March reference periods from 1986 to 2001. These data use the Standard Industrial Classification (SIC) and Census of Population occupational classification systems. The second listing contains data for the March, June, September, and December reference periods from March 2002 to December 2003. These data are also based on the SIC and Census of Population occupational classification systems. The final listing includes data for March 2004 to the current reference period. These are based on the North American Industry Classification System (NAICS) and Standard Occupational Classification (SOC) systems.

Information in this release will be made available to sensory impaired individuals upon request—Telephone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

BLS news releases, including the ECEC, are available through an e-mail subscription service at: www.bls.gov/bls/list.htm.

TECHNICAL NOTE

Employer Costs for Employee Compensation (ECEC) measures the average cost to employers for wages and salaries and benefits per employee hour worked.

ECEC includes the civilian economy, which includes data from both private industry and state and local government. Excluded from private industry are the self-employed and farm and private household workers. Federal government workers are excluded from the public sector. The private industry series and the state and local government series provide data for the two sectors separately.

The cost levels for this quarter were collected from a probability sample of approximately 62,800 occupations selected from a sample of about 13,200 establishments in private industry and approximately 11,600 occupations from a sample of about 1,800 establishments in state and local government. The private industry sample is rotated over approximately 5 years, which makes the sample more representative of the economy and reduces respondent burden. The state and local government sample, which is replaced less frequently than the private industry sample, was replaced in its entirety in September 2007. The sample is replaced on a cross-area, cross-industry basis. Data are collected for the pay period including the 12th day of the survey months of March, June, September, and December.

Comparing private and public sector data

Compensation cost levels in state and local government should not be directly compared with levels in private industry. Differences between these sectors stem from factors such as variation in work activities and occupational structures. Manufacturing and sales, for example, make up a large part of private industry work activities but are rare in state and local government. Professional and administrative support occupations (including teachers) account for two-thirds of the state and local government workforce, compared with one-half of private industry.

ECEC quarterly publication focus

ECEC news releases are published quarterly, providing civilian, private industry, and state and local government cost per hour estimates as well as additional detail on a specific compensation cost topic of interest. This quarter focuses on retirement and savings costs in private industry. Topics of news releases for the upcoming reference periods are as follows:

- September 2010—Compensation costs in state and local government
- December 2010—Paid leave and legally required benefit costs in private industry

ECEC detailed information and measures

For detailed information on the Employer Costs for Employee Compensation, see Chapter 8, National Compensation Measures of the *BLS Handbook of Methods* at: <http://www.bls.gov/opub/hom/pdf/homch8.pdf>.

Table 1. Employer costs per hour worked for employee compensation and costs as a percent of total compensation: Civilian workers, by major occupational and industry group, June 2010

¹ Includes workers in the private nonfarm economy excluding households and the public sector excluding the Federal government.

² Includes mining, construction, and manufacturing. The agriculture, forestry, farming, and hunting sector is excluded.

³ Includes utilities; wholesale trade; retail trade; transportation and warehousing; information; finance and insurance; real estate and rental and leasing; professional and technical services; management of companies and enterprises; administrative and waste services; educational services; health care and social assistance; arts, entertainment and recreation; accommodation and food services; other services, except public administration; and

public administration.

⁴ Includes premium pay for work in addition to the regular work schedule (such as overtime, weekends, and holidays).

⁵ Cost per hour worked is \$0.01 or less.

⁶ Less than .05 percent.

⁷ Comprises the Old-Age, Survivors, and Disability Insurance (OASDI) program.

Note: The sum of individual items may not equal totals due to rounding.

Table 2. Employer costs per hour worked for employee compensation and costs as a percent of total compensation: Civilian workers, by occupational and industry group, June 2010

¹ Includes workers in the private nonfarm economy excluding households and the public sector excluding the Federal government.

² Includes postsecondary teachers; primary, secondary, and special education teachers; and other teachers and instructors.

³ Farming, fishing, and forestry occupations were combined with

construction and extraction occupational group as of December 2006.

Note: The sum of individual items may not equal totals due to rounding.

Table 3. Employer costs per hour worked for employee compensation and costs as a percent of total compensation: State and local government workers, by major occupational and industry group, June 2010

Compensation component	Occupational group ¹								Industry group

¹ This table presents data for the three major occupational groups in State and local government: management, professional, and related occupations, including teachers; sales and office occupations, including clerical workers; and service occupations, including police and firefighters.

² Service-providing industries, which include health and educational services, employ a large part of the State and local government workforce.

³ Includes premium pay for work in addition to the regular work schedule

(such as overtime, weekends, and holidays).

⁴ Comprises the Old-Age, Survivors, and Disability Insurance (OASDI) program.

⁵ Cost per hour worked is \$0.01 or less.

⁶ Less than .05 percent.

Note: The sum of individual items may not equal totals due to rounding.

Table 4. Employer costs per hour worked for employee compensation and costs as a percent of total compensation: State and local government workers, by occupational and industry group, June 2010

Series	Total compensation	Wages and salaries	Benefit costs					
			Total	Paid leave	Supplemental pay	Insurance	Retirement and savings	Legally required benefits
