## Occupational Employment and Wages in San Juan-Carolina-Caguas — May 2016

Workers in the San Juan-Carolina-Caguas Metropolitan Statistical Area had an average (mean) hourly wage of \$14.24 in May 2016, about 40 percent below the nationwide average of \$23.86, according to the U.S. Bureau of Labor Statistics. Chief Regional Economist Martin Kohli noted that, after testing for statistical significance, average wages in the local area were lower than their respective national averages in all of the 22 major occupational groups.

When compared to the nationwide distribution, local employment was more highly concentrated in 7 of the 22 occupational groups, including protective service; office and administrative support; and sales and related. Conversely, 14 groups had employment shares significantly below their national representation, including transportation and material moving; healthcare support; and computer and mathematical. (See [table A](#) and [box note](#) at end of release.)

**Table A. Occupational employment and wages by major occupational group, United States and the San Juan-Carolina-Caguas Metropolitan Statistical Area, and measures of statistical significance, May 2016**

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	San Juan	United States	San Juan	Percent difference (1)
Total, all occupations .....	100.0	100.0	\$23.86	\$14.24*	-40
Management .....	5.1	4.7*	56.74	36.06*	-36
Business and financial operations .....	5.2	5.4*	36.09	18.59*	-48
Computer and mathematical .....	3.0	1.3*	42.25	21.65*	-49
Architecture and engineering .....	1.8	1.4*	40.53	26.77*	-34
Life, physical, and social science .....	0.8	0.7*	35.06	23.53*	-33
Community and social service.....	1.4	1.9*	22.69	13.84*	-39
Legal.....	0.8	0.6*	50.95	31.42*	-38
Education, training, and library.....	6.2	6.6*	26.21	16.92*	-35
Arts, design, entertainment, sports, and media.....	1.4	1.0*	28.07	15.51*	-45
Healthcare practitioners and technical .....	5.9	5.6	38.06	18.35*	-52
Healthcare support .....	2.9	1.0*	14.65	10.23*	-30
Protective service .....	2.4	7.2*	22.03	12.37*	-44
Food preparation and serving related .....	9.2	7.7*	11.47	8.97*	-22
Building and grounds cleaning and maintenance ...	3.2	4.4*	13.47	9.69*	-28
Personal care and service.....	3.2	1.9*	12.74	9.32*	-27
Sales and related .....	10.4	12.0*	19.50	11.34*	-42
Office and administrative support.....	15.7	19.5*	17.91	11.91*	-34
Farming, fishing, and forestry .....	0.3	0.2*	13.37	11.15*	-17

Installation, maintenance, and repair .....	3.9	3.3*	22.45	13.01*	-42
Production .....	6.5	5.5*	17.88	12.27*	-31
Transportation and material moving.....	6.9	4.8*	17.34	10.65*	-39

Note: See footnotes at end of table.

Footnotes:

(1) A positive percent difference measures how much the mean wage in the San Juan-Carolina-Caguas Metropolitan Statistical Area is above the national mean wage, while a negative difference reflects a lower wage.

\* The percent share of employment or mean hourly wage for this area is significantly different from the national average of all areas at the 90-percent confidence level.

One occupational group—protective service—was chosen to illustrate the diversity of data available for any of the 22 major occupational categories. San Juan-Carolina-Caguas had 48,430 jobs in protective service, accounting for 7.2 percent of local area employment, significantly higher than the 2.4-percent share nationally. The average hourly wage for this occupational group locally was \$12.37, significantly below the national wage of \$22.03.

Some of the largest detailed occupations within the protective service group included security guards (20,510); police and sheriff's patrol officers (14,400); and first-line supervisors of police and detectives (2,790). Among the higher paying jobs were detectives and criminal investigators and first-line supervisors of police and detectives, with mean hourly wages of \$30.26 and \$17.95, respectively. At the lower end of the wage scale were security guards (\$8.53) and lifeguards, ski patrol, and other recreational protective service workers (\$9.91). (Detailed occupational data for protective service are presented in [table 1](#); for a complete listing of detailed occupations available go to [www.bls.gov/oes/2016/may/oes\\_41980.htm](http://www.bls.gov/oes/2016/may/oes_41980.htm) .)

Location quotients allow us to explore the occupational make-up of a metropolitan area by comparing the composition of jobs in an area relative to the national average. (See [table 1](#).) For example, a location quotient of 2.0 indicates that an occupation accounts for twice the share of employment in the area than it does nationally. In the San Juan-Carolina-Caguas Metropolitan Statistical Area, above-average concentrations of employment were found in many of the occupations within the protective service group. For instance, bailiffs were employed at 10.4 times the national rate in San Juan, and first-line supervisors of police and detectives, at 5.8 times the U.S. average. On the other hand, firefighters had a location quotient of 0.9 in San Juan, indicating that this particular occupation's local and national employment shares were similar.

These statistics are from the Occupational Employment Statistics (OES) survey, a federal-state cooperative program between BLS and State Workforce Agencies, in this case, the Puerto Rico Department of Labor and Human Resources.

### **Note on Occupational Employment Statistics Data**

A value that is statistically different from another does not necessarily mean that the difference has economic or practical significance. Statistical significance is concerned with the ability to make confident statements about a universe based on a sample. It is entirely possible that a large difference between two values is not significantly different statistically, while a small difference is, since both the size and heterogeneity of the sample affect the relative error of the data being tested.

## Technical Note

The Occupational Employment Statistics (OES) survey is a semiannual mail survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in the United States. The OES data available from BLS include cross-industry occupational employment and wage estimates for the nation; over 650 areas, including states and the District of Columbia, metropolitan statistical areas (MSAs), metropolitan divisions, nonmetropolitan areas, and territories; national industry-specific estimates at the NAICS sector, 3-, 4-, and selected 5- and 6-digit industry levels, and national estimates by ownership across all industries and for schools and hospitals. OES data are available at [www.bls.gov/oes/tables.htm](http://www.bls.gov/oes/tables.htm).

OES estimates are constructed from a sample of about 1.2 million establishments. Each year, two semiannual panels of approximately 200,000 sampled establishments are contacted, one panel in May and the other in November. Responses are obtained by mail, Internet or other electronic means, email, telephone, or personal visit. The May 2016 estimates are based on responses from six semiannual panels collected over a 3-year period: May 2016, November 2015, May 2015, November 2014, May 2014, and November 2013. The overall national response rate for the six panels, based on the 50 states and the District of Columbia, is 73 percent based on establishments and 69 percent based on weighted sampled employment. The unweighted employment of sampled establishments across all six semiannual panels represents approximately 58 percent of total national employment. The sample in the San Juan-Carolina-Caguas Metropolitan Statistical Area included 4,012 establishments with a response rate of 79 percent. For more information about OES concepts and methodology, go to [www.bls.gov/news.release/ocwage.tn.htm](http://www.bls.gov/news.release/ocwage.tn.htm).

The May 2016 OES estimates are based on the 2010 Standard Occupational Classification (SOC) system and the 2012 North American Industry Classification System (NAICS). Information about the 2010 SOC is available on the BLS website at [www.bls.gov/soc](http://www.bls.gov/soc) and information about the 2012 NAICS is available at [www.bls.gov/bls/naics.htm](http://www.bls.gov/bls/naics.htm).

### Metropolitan area definitions

The substate area data published in this release reflect the standards and definitions established by the U.S. Office of Management and Budget.

The **San Juan-Carolina-Caguas, P.R. Metropolitan Statistical Area** includes Aguas Buenas, Aibonito, Barceloneta, Barranquitas, Bayamón, Caguas, Canóvanas, Carolina, Catano, Cayey, Ceiba, Ciales, Cidra, Comerio, Corozal, Dorado, Fajardo, Florida, Guaynabo, Gurabo, Humacao, Juncos, Las Piedras, Loiza, Luquillo, Manati, Maunabo, Morovis, Naguabo, Naranjito, Orocovis, Rio Grande, San Juan, San Lorenzo, Toa Alta, Toa Baja, Trujillo Alto, Vega Alta, Vega Baja, and Yabucoa Municipi.

### Additional information

OES data are available on our regional web page at [www.bls.gov/regions/new-york-new-jersey](http://www.bls.gov/regions/new-york-new-jersey). Answers to frequently asked questions about the OES data are available at [www.bls.gov/oes/oes\\_ques.htm](http://www.bls.gov/oes/oes_ques.htm). Detailed technical information about the OES survey is available in our Survey Methods and Reliability Statement on the BLS website at [www.bls.gov/oes/current/methods\\_statement.pdf](http://www.bls.gov/oes/current/methods_statement.pdf).

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

**Table 1. Employment and wage data from the Occupational Employment Statistics survey, by occupation, San Juan-Carolina-Caguas Metropolitan Statistical Area, May 2016**

Occupation <sup>(1)</sup>	Employment		Mean wages	
	Level <sup>(2)</sup>	Location quotient <sup>(3)</sup>	Hourly	Annual <sup>(4)</sup>
Protective service occupations.....	48,430	3.0	\$12.37	\$25,740
First-line supervisors of police and detectives.....	2,790	5.8	17.95	37,340
First-line supervisors of fire fighting and prevention workers.....	220	0.8	15.28	31,770
First-line supervisors of protective service workers, all other .....	670	1.9	14.65	30,470
Firefighters .....	1,360	0.9	12.38	25,750
Bailiffs .....	890	10.4	14.70	30,580
Detectives and criminal investigators .....	560	1.1	30.26	62,950
Police and sheriff's patrol officers .....	14,400	4.6	15.44	32,110
Private detectives and investigators.....	60	0.4	17.80	37,030
Gaming surveillance officers and gaming investigators..	120	2.4	10.47	21,790
Security guards .....	20,510	3.9	8.53	17,750
Lifeguards, ski patrol, and other recreational protective service workers .....	90	0.1	9.91	20,610
Transportation security screeners .....	370	1.8	17.85	37,130
Protective service workers, all other.....	740	1.1	12.02	25,010

Footnotes:

(1) For a complete listing of all detailed occupations in the San Juan-Carolina-Caguas Metropolitan Statistical Area, see [www.bls.gov/oes/current/oes\\_41980.htm](http://www.bls.gov/oes/current/oes_41980.htm)

(2) Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

(3) The location quotient is the ratio of the area concentration of occupational employment to the national average concentration. A location quotient greater than one indicates the occupation has a higher share of employment than average, and a location quotient less than one indicates the occupation is less prevalent in the area than average.

(4) Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.
